Welcome to our

2019 Catalogue

This year has been very challenging, mainly because of the hot conditions we have experienced. I have as you will see by the new catalogue scaled down on the varieties available. This is in part due to be able to supply customers on time with the varieties they require. So I have decided instead of retiring from the business to downsize operations and still continue to show and grow. We will still be out and about exhibiting at our usual trade shows during the year. Also one last point, can you please note the change of address for the business for postal orders.

Best Regards

Frankie
